PROFESSIONAL SUMMARY

Identity and access management practitioner with 12+ years of professional experience — including five years executing enterprise IAM operations at a global SaaS platform: JML provisioning/deprovisioning, RBAC and least-privilege enforcement, and SSO/SAML/Conditional Access triage across 200+ enterprise accounts. Founder of Juste™ LLC, building Least by Juste™ — a live SaaS product that automates Google Workspace access reviews — direct proof of IAM concepts applied to production architecture, not just documented on paper. B.S. Information Science, Information Security concentration, USF (3.76 GPA). CompTIA Security+ SY0-701 in progress; Microsoft SC-300 (Identity & Access Administrator) planned next.

IDENTITY & ACCESS GOVERNANCE PORTFOLIO

Microsoft Entra ID Governance Lab

Apr 2026–Present

- Configured live tenant (3 users, 4 Conditional Access policies: MFA enforcement, legacy auth blocking, location-based controls, privileged access); simulated 6 JML lifecycle events with full audit log documentation.
- Produced audit evidence package mapped to SOC 2 CC6.1–CC6.3 and NIST 800-53 AC-2; documented policy rationale and control testing methodology.

RBAC & Access Review Framework · JML Lifecycle Controls · SSO/MFA Runbook

2025–2026

- Designed quarterly access review workflow with RBAC role-permission matrix mapped to SOC 2 CC6.3; documented JML controls with SLA targets mapped to ISO 27001 A.5.15–A.5.18 and NIST 800-53 IA-2.
- Authored phased MFA governance plan with break-glass procedures, emergency access protocols, and evidence collection checkpoints.

BYOD & Password Security Policy — Professional Services Organization

2026

- Authored policy whitepaper covering account lifecycle management (RBAC, least privilege, JML) and password/MFA standards under NIST SP 800-63B; mapped to NIST CSF 2.0 GOVERN, IDENTIFY, and PROTECT functions.

PROFESSIONAL EXPERIENCE

Juste™ LLC · Tampa, FL

Mar 2026 – Present

Founder & CEO

- Built Least by Juste™ (app.getleast.io) — live access review automation platform automating Google Workspace access reviews for SMBs; architected the identity/access data model, OAuth integration, and review workflow end-to-end.
